January 2020

Dear Parents and Year 3 pupils,

We were so proud of all of you for the fantastic amount of effort that you put into completing last term's homework projects. Everyone had lots of fun working and learning together at home.

This term our two topics are 'A European Adventure' and 'Healthy Me!' and we can't wait to get started!

Focus on Europe: Pupils will extend their knowledge and understanding beyond the local area including the United Kingdom and Europe.

Healthy Me!: Pupils will be learning about the importance of nutrition and will be introduced to the main body parts, the skeleton and muscles, finding out how different parts of the body have special functions.

Here are the tasks. You can use your topic book to write up any of your findings and include pictures and drawings or you may choose to present your work differently e.g. a large poster which we can display in the classroom.

Booklet due in on the 10th February:

Research and Writing

- Research a European country. Find out about famous places you can visit, climate, food for the country and any other information useful for tourists.

<http://www.ducksters.com/geography/europe.php>

<https://www.activityvillage.co.uk/europe>

Produce a detailed booklet in the style of a tourist guide.

Poster and healthy menu due in on the 8th March

- **How can we live more sustainably?**

Sustainability is ensuring that the planet and all of its resources can continue to provide a home for the humans, animals and plants that live here.

It is our job to take care of the planet to ensure that future generations of people and animals can live and thrive on Earth.

- **How can we be more sustainably at home?**

As well as using renewable resources we can also be a more sustainable society by following the **reduce – reuse – recycle** method.

- Design a poster to encourage people to **reduce, reuse & recycle** in their home.

- **What makes a healthy diet?**

Research what sorts of food we need to eat to keep our bodies healthy. What are the main food groups and why do we need to make sure they are included in our diet?

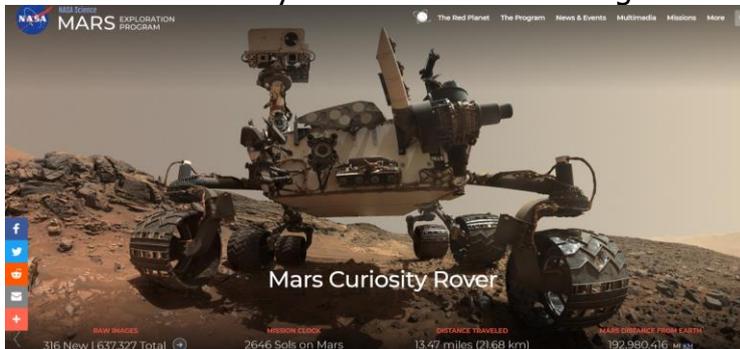

Think about the sorts of foods that would make an exciting menu. Perhaps you could try some new foods yourself or cook a new meal with the help of an adult.

- Write up your findings in an information text. You could include a menu like a restaurant and any recipes that you use.

Fairness, Curiosity & PSHE due in 23rd March

Our character strengths for this term are: Fairness and Curiosity

This is the Mars Curiosity Rover, investigating the planet Mars. What are you curious about? Be your own curiosity rover and get searching for the answers. E.g find out about the human eye and how we see things or how the moon reflects the sun.

- Write a poem or story about **fairness**
- Our PSHE focus this half term is 'Dreams and Goals'.
Do you have a dream or goal? What would you like to achieve?
Find out about how you could achieve your goal and write about how you can work towards this. Include a picture or photograph.

Your project needs to be handed in on **Monday 23rd March**. Please feel free to speak to Mrs Brown or Mr Kyle if you have any questions at all.

Thank you Year 3 Teachers.
