	Maths learning & practice activity 45 mins	<p>1. The pirate ship, Endeavour, could be sold for either £11, £101 or £538 (you choose) Each time it is sold on it doubles in price. What is your pirate ships value after 10, 54 and 9541 resells? Think about how you can check your answer with the inverse operation.</p> <p>2. Make up your own ship name like the one above. Can you create your own secret code for your adult to crack to find out what your ship name is called?</p> <p>3. Pirates need a stool to sit on that has an exact area of 30cm squared. What different shape stools can you make? Think about the different shapes that can be made... remember they can be irregular...</p>
