	Reasoning & Solving problem activity 45 mins	Have a go at the problem solving maths How many can you do?	Sheet attached
	Prodigy activity 10 mins		

Creative task  
45 mins

Today your creative task is to create or serve a meal at home for your family. It can either be breakfast, lunch or dinner. Try and present the food nicely on the plate or bowl. You could even set the table before your meal! Use whatever you already have at home. If you decide to cook, please ask an adult to help you.

When you've washed up have a go at the origami animals below. Can you create your own animal?
