

Year 6 Home Learning – 11th May

- **Today would have been the beginning of you SATs week in Year 6.**
- **We are very proud of you for your efforts during home learning.**
- **We miss you very much.**

MATHS

Log in to sats companion and complete the fractions tasks set by your maths teacher.

ENGLISH

The following link is a film set during WW2 and features a young boy who dreams of flying. One day the peace of this small farming community is shattered by a police chase.

A tragedy is on the cards but luckily 'The Rocketeer' was on hand to save the day!

Watch the following video called The Rocketeer:

<https://www.literacyshed.com/the-rocketeer.html>

Task: Either retell the story you have just watched or write your own adventures of The Rocketeer. Try to make your story a page of A4. Your teacher would love to read it so send it on at:

Cgibson@ashfield-jun,cumbria.sch.uk

Dgaskell@ashfield-jun,cumbria.sch.uk

Science investigation

Today we would like you to build a rocket! Use the attached rocket template to build your rocket out of paper using sellotape, scissors, and a pencil. If you cannot print the resource, trace the shapes from the computer screen onto paper and cut them out.

Then use the rocket investigation sheet to carry out the investigation and record your work. If you cannot print, keep a record of your responses on paper.

Email this to your teachers if you would like to.

Have fun!
