

Time

1. Can you use the rhyme below to help you work out how many days there are in each month?
2. Record the correct number of days in the boxes.

Thirty days has September,
April, June and November;
Thirty-one the others date,
Except in February, twenty-eight;
But in a leap year we assign,
February twenty-nine.

October	
November	
December	

3. True or False?

Look at the set of the True or False Cards. Cut them out.

Place the cards face down on the table, then pick up a card and read out the sentence.
Decide if the sentence is true or false.

Then sort the cards into piles so that by the time all the cards have been picked up there is a 'true' pile and a 'false' pile.

Finally, go through each of the cards and check if your answers were correct using the Time Cheat Sheet.

<p>True or False?</p> <p>There are 31 days in July.</p> 	<p>True or False?</p> <p>There are 31 days in August.</p> 	<p>True or False?</p> <p>There are 425 days in a year.</p> 
<p>True or False?</p> <p>There are 18 months in a year.</p> 	<p>True or False?</p> <p>There are 365 days in most years.</p> 	<p>True or False?</p> <p>There are 28 days in February.</p> 
<p>True or False?</p> <p>Leap years occur every other year.</p> 	<p>True or False?</p> <p>The month after October is May.</p> 	<p>True or False?</p> <p>The month before June is February.</p> 
<p>True or False?</p> <p>There are 30 days in June.</p> 	<p>True or False?</p> <p>The month before March is February.</p> 	<p>True or False?</p> <p>There are 366 days in a leap year.</p> 

Time

There are 60 seconds in one minute.

Leap years occur once every 4 years.

The month after January is February.

True or False?

True or False?

True or False?

The month before August is June.

The month before May is April.

There are 12 months in a year.

True or False?

True or False?

There are 100 minutes in an hour.

There are 12 hours in one day.

There are 24 hours in one day.

True or False?

True or False?

True or False?

There are 52 weeks in a year.

The month before January is December.

There are 31 days in November.

Answer sheet

Month	No. of days
January	31
February	28 or 29
March	31
April	30
May	31
June	30
July	31
August	31
September	30
October	31
November	30
December	31

Second	Seconds are a very short period of time.
Minute	There are 60 seconds in one minute.
Hour	There are 60 minutes in one hour.
Day	There are 24 hours in one day.
Week	There are 7 days in one week.
Month	There are approximately 30 days in one month.
Year	There are 12 months or 365 days in one year.

Thirty days has September,
April, June and November;
Thirty-one the others date,
Except in February, twenty-eight;
But in a leap year we assign,
February twenty-nine.

Days of the week
Monday
Tuesday
Wednesday
Thursday
Friday
Saturday
Sunday

Leap years
There are $365\frac{1}{4}$ days in each year. To make this easier, we round down to 365 days a year.
However, every four years we add an extra day, 29th February, to make up for the quarter days we missed. These years have 366 days and are known as leap years.
