

6G Home Learning – 3rd July

- The fastest recorded tennis serves are over 155 miles per hour.
- Sports have been played on the moon.
- Golf balls were originally made from dried cow eyeballs.

Tasks

1. Today's task begins with a piece of artwork. Have a look at the examples below.

- Step 1: Draw around your hand and arm.
- Step 2: Decorate your hand and create a border around your page.
- Step 3: Colour your work.
- Step 4: In the spaces around your hand and between your fingers, write some information about yourself including things that you value and find important. Take time with this task and either email a photo or send your work into school. We will display these in September.

2. To get to know me and the other Year 6 staff a little better, visit the website <https://kahoot.it/> and enter the game pin **05289009** when prompted. Use your name or initials when playing the quiz and only enter once. The game will close at 5pm on Friday 3rd. The winner will be announced via class dojo.

Good luck!

3. Can you write me a persuasive letter explaining to me why you will make an excellent member of 6DG. Think about all your good qualities (which I am sure you have many).

Think about your persuasive language and techniques.

Think about your layout of a letter.

Remember you are trying to convince me that you will be an excellent member of my class.

Email your work or a picture of it to dgaskell@ashfield-jun.cumbria.sch.uk
