

Year 6 Home Learning – Friday 29th January

MATHS

View the video on class dojo for details about today's maths task. We would like you to create a poster/leaflet/power point/video to provide a helpful guide to an area of maths aimed at your year group.

ENGLISH

View the video on class dojo and have your writing ready from Monday and Tuesday.

COMPUTING

Today we are going to explore some of our computing curriculum. We would like you to visit the following website:

<https://studio.code.org/s/dance-2019/stage/1/puzzle/1>

For your task today, we would like you to code a dance party. There is a video available as soon as you paste in the website. This will give you an introduction into what it is and how the programme works. Once you have watched the video, you will see a page that says 'Welcome to Dance Party.' The first steps will get you to carry out some instructions using prompts. You can use the arrows to select different options in the blocks section. When you are happy with your choice, click 'run' which is in the left column. You can change your song choice using the drop-down bar above the 'run' button. Follow the instructions box and have a go. This is getting you familiar with the skills. If you haven't used programmes like this before and you find it tricky, do not worry. We are here to help and it's getting you familiar one step at a time. Do what you can and send us a photo. Enjoy! You've made it to the end of another week.
