Spellingframe

Yr 1 common exception words: Spelling Rule 34

Yr 2 common exception words: Spelling Rule 31

Yr 3 common exception words: Spelling Rule 25 (these words are more challenging)

Try a game to support your spellings

MATHS:

BBC Smartmovers either 2, 5, 10 times tables or challenge yourself to the 3 & 4 times tables.

Online warm up activity: Number Bonds choose a suitable level for your child.

Spend 15mins on this activity

<https://www.topmarks.co.uk/maths-games/hit-the-button>

Activity:

Add two 2-digit numbers - not crossing ten - add ones and add tens

Introduction Video: Mrs Brown:

Spot the Mistake

Amir

589 – 70 is equal to 582

What should the answer be?

Write **one** calculation that could complete **all** of the statements.

$456 - 10 < \boxed{}$

$466 + 1 > \boxed{}$

$466 + 0 = \boxed{}$

Reasoning and Problem Solving

ENGLISH:

We are going to be studying 'The Mystery of the Mona Lisa' by Elizabeth Singer Hunt for our English work. Today we will begin by introducing the book and thinking about what it takes to become a secret agent!

Task 1

Do you know what a secret agent does?

What sort of a person would make a good secret agent?

Can you think of any famous secret agents?

Do you think it would be an exciting job to do?

Task 2

Find out about who Jack Stalwart is by reading the introduction.

Read the passage carefully and answer the questions, in full sentences, in your Home Learning book.

GLOBAL PROTECTION FORCE FILE ON
JACK STALWART

Jack Stalwart applied to be a secret agent for the Global Protection Force four months ago.

My name is Jack Stalwart. My older brother, Max, was a secret agent for you, until he disappeared on one of your missions. Now I want to be a secret agent, too. If you choose me, I will be an excellent secret agent and get rid of evil villains, just like my brother did.

Sincerely,

Jack Stalwart

GLOBAL PROTECTION FORCE INTERNAL MEMO:
HIGHLY CONFIDENTIAL

Jack Stalwart was sworn in as a Global Protection Force secret agent four months ago. Since that time, he has completed all of his missions successfully and has stopped no less than twelve evil villains. Because of this he has been assigned the code name COURAGE.

Jack has yet to uncover the whereabouts of his brother, Max, who is still working for this organization at a secret location. Do not give Secret Agent Jack Stalwart this information. He is never to know about his brother.

Gerald Barter

Gerald Barter
Director, Global Protection Force

THINGS YOU'LL FIND IN EVERY BOOK

Watch Phone: The only gadget Jack wears all the time, even when he's not on official business. His Watch Phone is the central gadget that makes most

others work. There are lots of important features, most importantly the C button, which reveals the code of the day – necessary to unlock Jack's Secret Agent Book Bag. There are buttons on both sides, one of which ejects his life-saving Melting Ink Pen. Beyond these functions, it also works as a phone and, of course, gives Jack the time of day.

Global Protection Force (GPF):

The GPF is the organization Jack works for. It's a worldwide force of young secret agents whose aim is to protect the world's people, places, and possessions. No one knows exactly where its main offices are located (all correspondence and gadgets for repair are sent to a special PO Box, and training is held at various locations around the world), but Jack thinks it's somewhere cold, like the Arctic Circle.

Whizzy: Jack's magical miniature globe. Almost every night at precisely 7:30 PM, the GPF uses Whizzy to send Jack the identity of the country that he must travel to. Whizzy can't talk, but he can cough up messages. Jack's parents don't know Whizzy is anything more than a normal globe.

The Magic Map: The magical map hanging on Jack's bedroom wall. Unlike most maps, the GPF's map is made of a mysterious wood. Once Jack inserts the country piece from Whizzy, the map swallows Jack whole and sends him away on his missions. When he returns, he arrives precisely one minute after he left.

Secret Agent Book Bag: The Book Bag that Jack wears on every adventure. Licensed only to GPF secret agents, it contains top-secret gadgets necessary to foil bad guys and escape certain death. To activate the bag before each mission, Jack must punch in a secret code given to him by his Watch Phone. Once he's away, all he has to do is place his finger on the zipper, which identifies him as the owner of the bag and immediately opens.

THE STALWART FAMILY

Jack's dad, John

He moved the family to England when Jack was two, in order to take a job with an aerospace company.

As far as Jack knows, his dad designs and manufactures aeroplane parts. Jack's dad thinks he is an ordinary boy and that his other son, Max, attends a school in Switzerland. Jack's dad is American and his mum is British, which makes Jack a bit of both.

Jack's mum, Corinne

One of the greatest mums as far as Jack is concerned. When she and her husband received a letter from a

posh school in Switzerland inviting Max to attend, they were overjoyed. Since Max left six months ago, they have received numerous notes in Max's handwriting telling them he's OK. Little do they know it's all a lie and that it's the GPF sending those letters.

Jack's older brother, Max

Two years ago, at the age of nine, Max joined the GPF. Max used to tell Jack about his adventures and show

him how to work his secret-agent gadgets. When the family received a letter inviting Max to attend a school in Europe, Jack figured it was to do with the GPF. Max told him he was right, but that he couldn't tell Jack anything about why he was going away.

Nine-year-old Jack Stalwart

Four months ago, Jack received an anonymous note saying: "Your brother is in danger. Only you can

save him." As soon as he could, Jack applied to be a secret agent, too. Since that time, he's battled some of the world's most dangerous villains and hopes some day in his travels to find and rescue Max.

Please write the date and aim at the top of your work, just like you would do if you were in school.

Monday 11th January

Aim. To find out about Jack Stalwart

- 1) Why do you think Jack wanted to become a secret agent?
- 2) How many evil villains has Jack stopped?
- 3) What is Jack's brother called?
- 4) Where is the magical map?
- 5) What is the only gadget that Jack wears all of the time?

Extension:

You might like to begin making your own top-secret file. Write the information that you have collected about Jack Stalwart and his family in a fact file.

Enquiry and investigation

We're going to begin today looking at our key question for this half term:

How can we live more sustainably?

This question will link to the Geography work we have already begun last week when we started thinking about Europe.

At Ashfield, we think about sustainability all of the time and in lots of different ways. Its very important to us because we believe the world has so many good things and so many different amazing people and cultures that we can learn from. We want the world to be a better place, both now and in the future. So we just love sustainability and Global Learning!

Have a look at this video on Youtube:

<https://www.youtube.com/watch?v=7V8oFI4GYMY>

Have you heard of Sustainability before?

Do you think that it's important?

Can you think of any examples of sustainability that you might already be doing at home?

In your Home learning book....

Please write the date and aim at the top of your work, just like you would do if you were in school.

Monday 11th January

Aim. To explore sustainability.

In your own words write down what you think being sustainable means.

What are the 3 aspects of sustainability?

Draw some pictures or take some photographs of how you might be sustainable at home.

E.g) Doing the recycling or saving water or energy.
