

Chinese New Species

Earlier this week, you learnt the story of the Chinese zodiac and the race involving the 12 species.

Using your research skills, find out the fastest possible speed for each of the species and present your findings. Then write the order in which they realistically would win a race.

SPECIES	FASTEST SPEED	POSITION IN A REAL RACE /12
Oxen		
Tiger		
Rabbit		
Dragon		
Snake		
Horse		
Sheep		
Monkey		
Rooster		
Dog		
Pig		
Rat		

How much faster is the fastest species than the slowest?

How much quicker is the faster species than the 5th quickest?

What is the difference in speed between the tiger and the rat?
